

CUTTING EDGE MEETINGS FOR ANY ROOM

Learn how GoToRoom transforms any meeting space into a collaboration powerhouse.

GoToRoom is an intelligent conference room solution teams rely on to communicate effectively. Unlike other meeting room products, GoToRoom eliminates IT and user frustration so teams focus less on the technology and more on getting work done.

WORRY-FREE IT MANAGEMENT

Simplified Licensing

No need to issue new licenses. Employees use their GoToMeeting or GoToConnect credentials to access GoToRoom. Manage your rooms in one location with the GoTo Admin Center.

Self-Service Room Reservations

Synchronize GoToRoom with Microsoft (Exchange or Office 365) or Google Calendar to always keep availability current. GoToRoom in-room device screens show availability and allows ad hoc reservations.

Third Party Meeting Compatibility

Deliver a cutting-edge meeting experience even if you're stuck with a third-party meeting license. Compatible with:

- ✓ BlueJeans
- ✓ Cisco Webex
- ✓ MS Teams
- ✓ Google Hangouts
- ✓ Zoom

A NEXT GENERATION MEETING EXPERIENCE

Unified Meeting Interface

GoToRoom uses the same sleek, modern GoToMeeting user experience your team knows and loves. Rooms reserved in GoToMeeting automatically sync with GoToRoom.

Frictionless Meeting Launch

With GoToRoom's easy launch options, every meeting starts when it's supposed to – not 10 minutes late.

- Sync with Microsoft or Google calendars let users launch a meeting with one click.
- No license? No laptop? No problem. Every GoToRoom has its own license and hardware to host meetings.
- Launch the meeting manually from your mobile device or instantly when it detects your phone in the room.

Better Content Sharing

Use multiple monitors for dual-display. Show attendee webcams on one screen and share important meeting content on the other.

- Use multiple monitors for dual-display. Show attendee webcams on one screen and share important meeting content on the other.
- Share content wirelessly. Enter the unique GoToRoom URL to share your screen on the display and to remote attendees.

Clearer Communications

GoToRoom works with intelligent audio and video features designed to deliver an immersive meeting experience for attendees in the room or across the globe.

- See room attendees in crystal clear, 4K ultra HD resolution coupled with full room pickup for audio.
- Identify who's talking with auto-detect and zooming for active speakers.
- Frame and share your in-room whiteboard so everyone can see.
